THE PERFECT BLOOMS FOR WHEN YOU SAY 'I DO'

We've been honoured to be a part of so many wonderful couple's wedding day, and we would love to help bring a bit of magic to yours too.

From flower arches to buttonholes, and all arrangements in-between, we make everything with joy and love, with expert care and attention given to every stem, just like the rest of your wedding.

Don't know your Antirrhinum from your Allium, or your Ranunculus from your Rose? We're here to take all the stress of your wedding flowers off your hands, so you can just drink, dance and be merry from start to finish.

We've worked in wedding venues all across London, Berkshire, and even further afield, and love to travel to get your flowers to you for your day. No wedding is too big or too small, and with our expertise, no two will be the same. Do your wedding your way!

Please note, as a freelance florist, I now impose a minimum spend on weddings of £1000 as of January 2023. If you choose to reduce your flower order before the wedding the minimum spend cannot be reduced from £1000.
